

BGC

IN-HOUSE SCANNING & MODELING SERVICES

The BGC, Inc., Water & Wastewater Services Division Team has in-house scanning and modeling services available to our clientele. Services include: Update as-builts with accurate existing conditions, detailed arrangement drawings for new equipment retrofits, custom fabrication drawings, and geometric analysis of site/structure/equipment conditions. Take the headache out of updating old as-builts and retrofitting new equipment! Installation and fabrication available upon request.

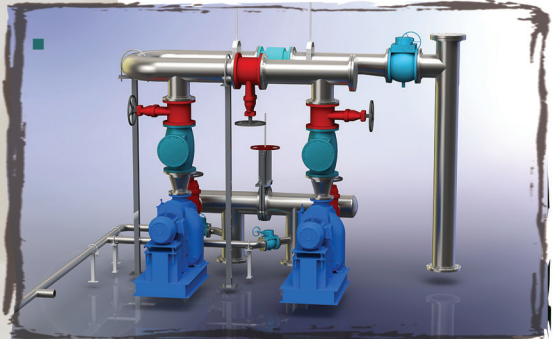

In-House Scanning & Modeling Services:

- BGC Engineering Team Scanning and Modeling Services
- Using the Trimble X7 3D laser scanner we can collect as-built dimensions to within +/- 1/16" accuracy of any existing environment
- Accurately model existing conditions or retrofit this space with new equipment, piping or structures
- Final products offered:
 - » Scan available as a point cloud (.rwp, .e57, .pts)
 - » Complete 3D model (STEP, SW, DWG, Creo, STL)
 - » 2D Arrangement and Fabrication Drawings (PDF, SW, DXF, DWG)
 - » Custom Metals fabrication available upon request
 - » Installation available upon request
